Food/Beverages ~ Bake Sale

A 30+-year member of our community, Burnt Hills-Ballston Lake graduate, and an electrician by trade, Norm Murauskas is currently facing one of life's toughest challenges—cancer. Norm has always been there for others lending a helping hand to friends, family and neighbors in need.

Norm was recently diagnosed with Lymphoma cancer, and while he's tackling treatment with incredible strength and determination, the financial burden of medical bills and related expenses is weighing heavily on him and his family. As many of you know, navigating through treatments can be overwhelming, both emotionally and financially.

Norm will start another treatment plan at the Dana-Farber Cancer Institute in Boston, MA where he must be for a minimum of four weeks, keeping him from work for up to three months **after** the treatment is complete. Norm's family and friends are coordinating fundraising efforts to help alleviate some of the financial impact and stress.

We are humbly asking for community support. By participating and/or donating, you're not just providing financial support—you're sending Norm a powerful message of love, hope, and solidarity. Your kindness will help Norm focus on what's most important: his health and healing.

GoFundMe: All funds raised will be withdrawn directly by Norm to ensure they are used for his medical and related expenses. We appreciate your trust and support.

gofundme™
