A Public hearing was opened at 7:22PM regarding the application of Dr. Frank Akawi for a variance of Chapter 54, appendix A310.3 – Separation requirements for a replacement septic system. Supervisor Pemrick states that Town Engineer, Charles Baker agrees with the applicant’s engineer, Wayne Kant, that this is the proper replacement for a failed system. The applicant agrees to base line test the neighbor’s water once the system is installed, and yearly after that. There being no public comments pro or con, the hearing was closed at 7:26PM.

Resolution # 38 – Grant Septic Variance for 3100 Route 9N- Dr. Frank Akawi

Motion: Capasso, C.

Seconded: Cochran, C.

Resolved, That the Town Board grants a variance for a replacement system for property owned by Dr. Frank Akawi, 3100 Route 9N (Tax Map # 138.1-1-25), based on it was approved by the Town Engineer, it is a small variance, no negative impact to the neighborhood, and the applicant will base line test the neighbor’s water once the system is installed and yearly after that.

VOTE: Ayes: Pemrick, Cochran, Capasso

Noes: None
